

Civil Alleviation Process Objective:

The objective of this plan is to give law abiding citizens a chance to rectify any potential criminal charges placed against them, while ensuring due process and providing an opportunity for them to cooperate in the investigative effort. The plan includes key points such as a preemptive bail opportunity, steady-state two-way communication with local law enforcement, cash bail secured by an FDIC Trust account, and assistance from the Federal Public Defenders Office if legal assistance is required.

1. Preemptive Bail Opportunity:

In order to encourage individuals involved in any civil alleviation process to cooperate and facilitate the civil alleviation process effort, a preemptive bail opportunity will be provided. This opportunity allows individuals to voluntarily surrender themselves to the authorities without the need for immediate arrest. By doing so, they will have the chance to secure their release on bail and avoid potential negative consequences associated with an arrest.

2. Steady State Two-Way Communication with Local Law Enforcement:

To ensure effective coordination and information sharing, a steady-state two-way communication channel will be established between the United States Attorney's office and local law enforcement agencies. This communication will enable the timely exchange of information, updates on investigations, and coordination of efforts to apprehend individuals involved in any Federal Civil Obligation during civil alleviation process.

3. Cash Bail Opportunity secured by FDIC Trust Account:

To streamline the process of securing bail, a cash bail option will be made available. This option will be secured by an FDIC Trust account, ensuring the safety and integrity of the funds on an electronic bonding verification voucher. To make the process convenient and accessible, cash deposits can be made at locally available kiosks, such as those found at grocery stores and fuel stations. The bail amount will be set at required amount set by issuing judge who is presiding over the initial issuance of degenerative civil warrant.

MOBILE ESCORT ORDERS

(MAINTAIN CONTACT ORDER)

With the (MCO) You are now strictly under court order of the United States District Court, to maintain this line of open communication. Meaning remaining on the active phone line until you make it to the contracted law enforcement facility. The reason for the (MCO) is for your personal and private protection. In case you come into contact with active law enforcement on your ride or during your mobile escort process the officer could intervene to make sure you wouldn't be arrested or apprehended, while you have active pending warrants or citations upon your person. This is a safety precaution set in place for first time offenders to try and assist the process of the preemptive surety bond. To ensure the judges leniency in keeping your criminal background clear and blemish free, in the assumption you are indeed innocent. At anytime you decide to disconnect the active line of communication, you will be terminating the judges orders of the civil process and the law enforcement contact officer has no other option but to forward your call to (CID) Criminal Investigation Division. Meaning your call will be transferred to the criminal division pending arrest and detainment. We highly advise against this option since the honorable judge has considered you for the first offenders civil surety option.
